NOAH NERIUS P

B.Tech Artificial Intelligence & Machine Learning Student

noahnerius@karunya.edu.in | 8807650081 | github.com/noahnerius | Coimbatore, Tamil Nadu

PROFESSIONAL SUMMARY

First-year AI & ML student interested in software development, cybersecurity, computer vision, and IoT. Builds student project prototypes that connect web interfaces, automation concepts, and hardware/software systems. Interested in practical problem-solving, collaborative project work, internships, and hackathons.

TECHNICAL SKILLS

Programming & Web: Python, JavaScript, HTML, CSS, Flask

IoT & Embedded: Arduino, sensor interfacing, actuator control, serial communication

AI & Security: AI-assisted analysis concepts, network configuration auditing, NIST/CIS compliance concepts

Tools & Platforms: VS Code, GitHub, Firebase, SQLite; API integration and PDF reporting concepts

PROJECT EXPERIENCE

TE Audits — Network Security Compliance Auditing Prototype

Worked on a Flask-based web application concept for auditing network-device configurations against NIST/CIS-inspired checks. Project scope includes multi-vendor configuration analysis, AI-assisted explanations, dashboard visualization, batch uploads, and PDF report generation.

AVEN / Scene3D — Browser-Based 3D Visualization Concept

Explored a workflow for converting floor-plan images and walkthrough-video inputs into navigable 3D environments. Focused on the concept of real-scale visualization and browser-based interaction; prepared a technical hackathon presentation.

Dual-Axis Solar Energy Harvester Based on Sunlight Intensity

Developing an Arduino-based project concept that uses light sensors and servo motors to orient a solar panel along two axes according to measured sunlight intensity. Work includes circuit planning, sensor placement, and control-logic design.

IoT Monitoring & Control Dashboard — Student Prototype

Worked on a hardware/software integration concept using Arduino Uno R4 WiFi, sensors, Firebase, and a web dashboard to monitor environmental readings and control connected outputs.

EDUCATION

Karunya Institute of Technology and Sciences — Coimbatore, Tamil Nadu
Bachelor of Technology (B.Tech), Artificial Intelligence and Machine Learning | First Year

AREAS OF INTEREST

AI & Machine Learning · Web Development · Cybersecurity · IoT & Embedded Systems · Computer Vision · 3D Visualization
